

Cadet Konur

For MAA training, I went to Sea Girt, NJ. It was a very exciting, fun, and action-packed training. We did many things such as takedown moves, house clearing, breaching doors, pulling over vehicles, and learned the basics of being an MAA. We also went to the firearms simulator and shot the Beretta M9. We were also issued duty belts with ASP Red guns. After each day, we would be granted liberty. We would either watch a movie or hit the beach. I highly recommend this training.
