### MAA Training

I am PO3 Bassett, and this is my summary of my awesome MAA training experience MAA stands for Master-at-Arms; basically MAA's are the Navy's police force. I conducted my MAA training at Sea Girt, NJ which was this nice National Guard base near the ocean. Throughout the week, our MAA classes learned a lot of things; like hand-to-hand combat, pepper spraying, handcuffing, drawing and storing weapons, situations when to use deadly force, and entering and clearing rooms/buildings. When we weren't learning how to be MAAs, we were on liberty either at the beach, watching a movie, or going bowling. I had a blast at MAA training.
